

 **reliance XR Series**

# RELIABLE PROTECTION

The Reliance XR series sets a new standard for scalability, flexibility, and backwards compatibility. It empowers professional security installers to utilise a single platform for both new installations and upgrading legacy systems with cutting edge technologies. The Reliance XR series, provides a smart hybrid intrusion solution suitable for installations of various sizes, from residential to commercial setups.

### **HYBRID PANEL**

Convenience with either wireless or wired connections, providing you options when connecting sensors and devices.

### **BACKWARDS COMPATIBLE**

Upgrade legacy panels such as the Reliance R8 to access the latest features and security while retaining your existing sensors and devices.

### **MODULAR DESIGN**

Add the 4G/WiFi module and ensure uninterrupted security through a reliable 4G backup in case of any WiFi or NBN downtime.

## **DISCOVER THE BENEFITS**

Two models to provide cost effective options.

Live Notifications on your Alarm Statuses.

A range of wireless or wired detection devices.

Access World Wide Anytime.

Feature rich Apple and Android Mobile App.

Simplifying the install process with automatic features.

### **Functions to control other devices in your home.**

Garage Door

Front Gate

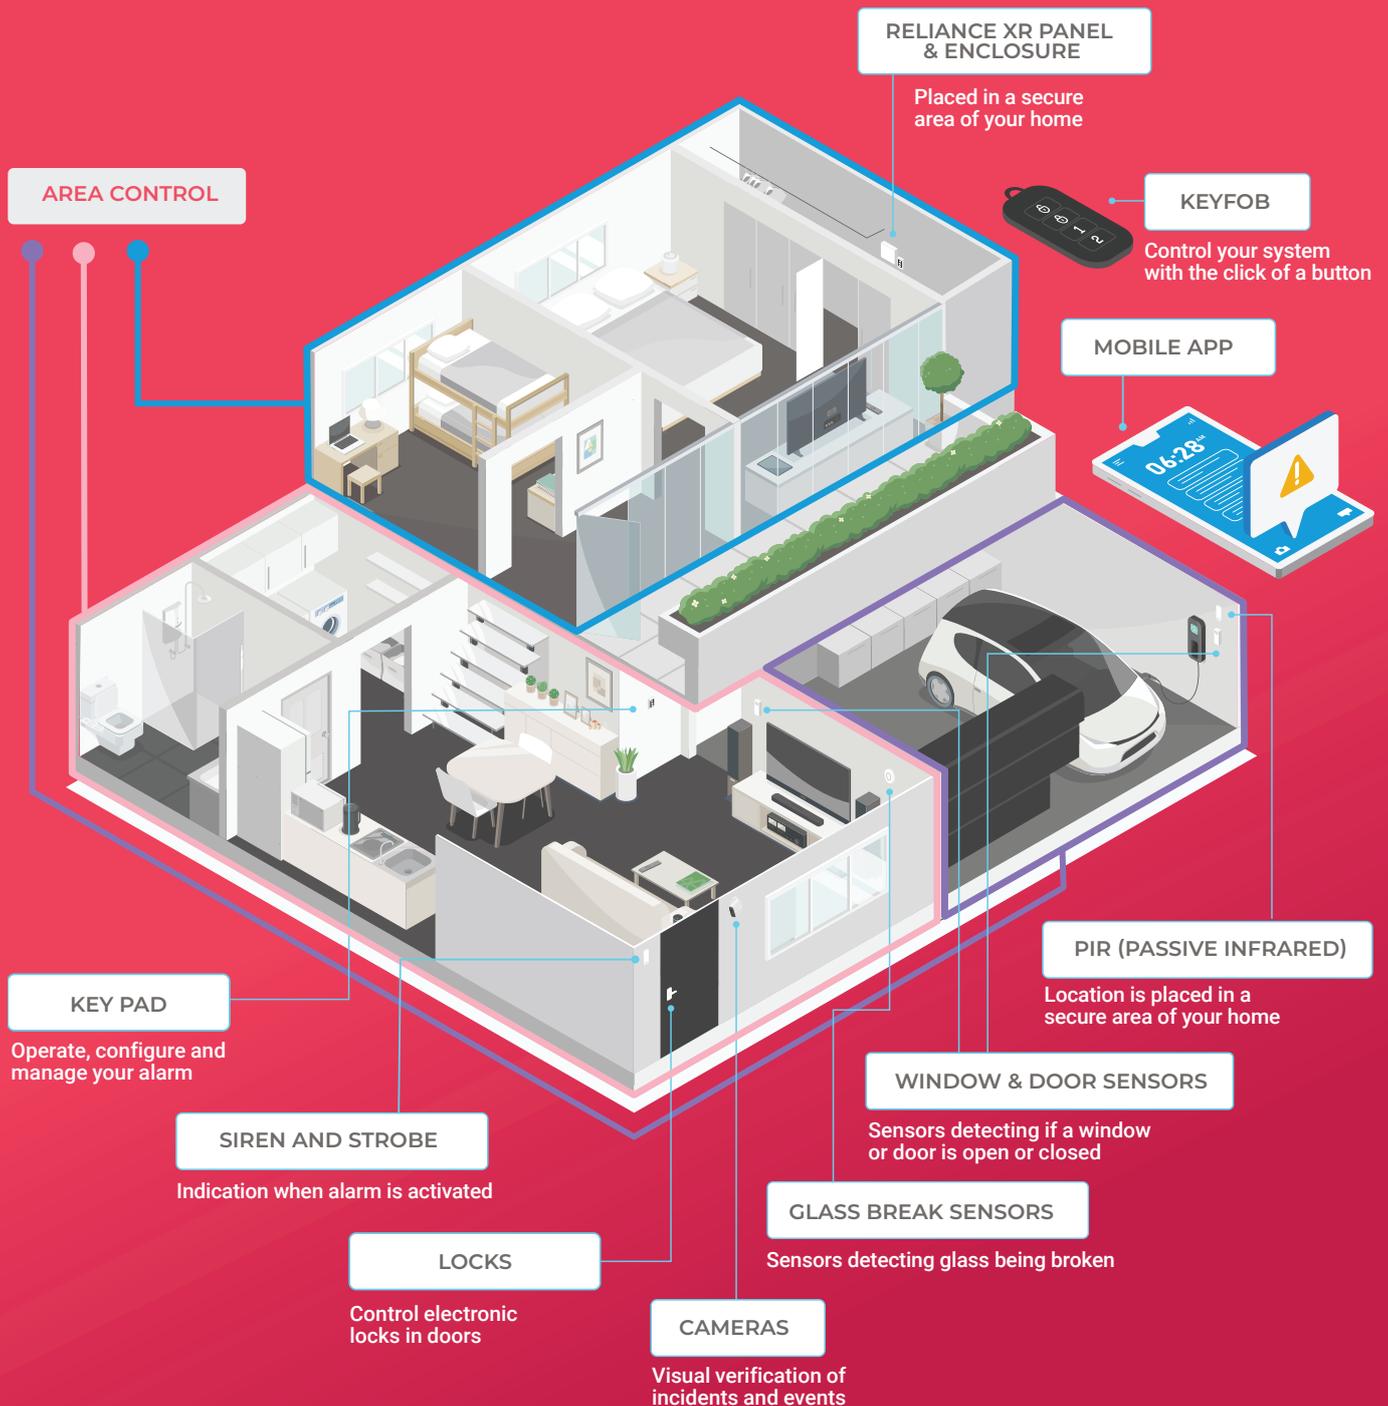

Lights

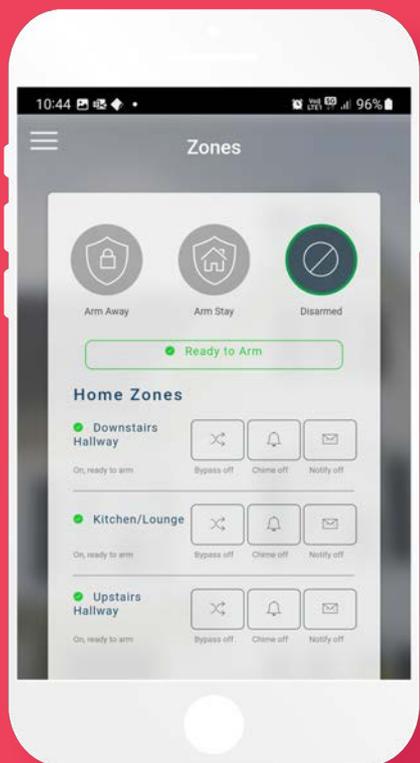

Sprinklers

# SENSORS & DEVICES

# CONFIGURE. MANAGE. OPERATE.

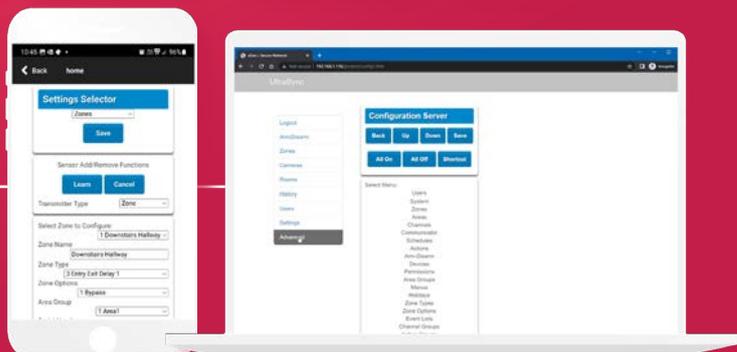

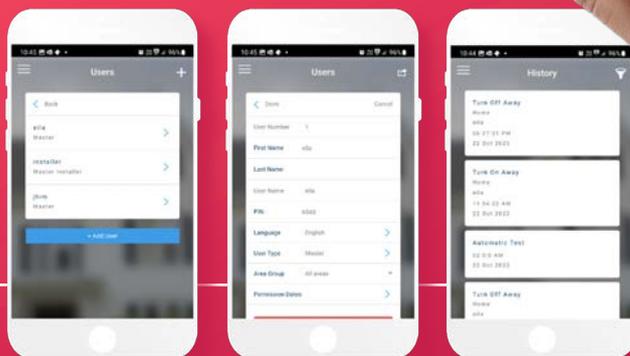

Manage multiple sites

Manage and view who can access your system

Configure and manage your system using the Mobile App or a Browser

Arm and operate different areas

# MONITORING

## ULTRASYN

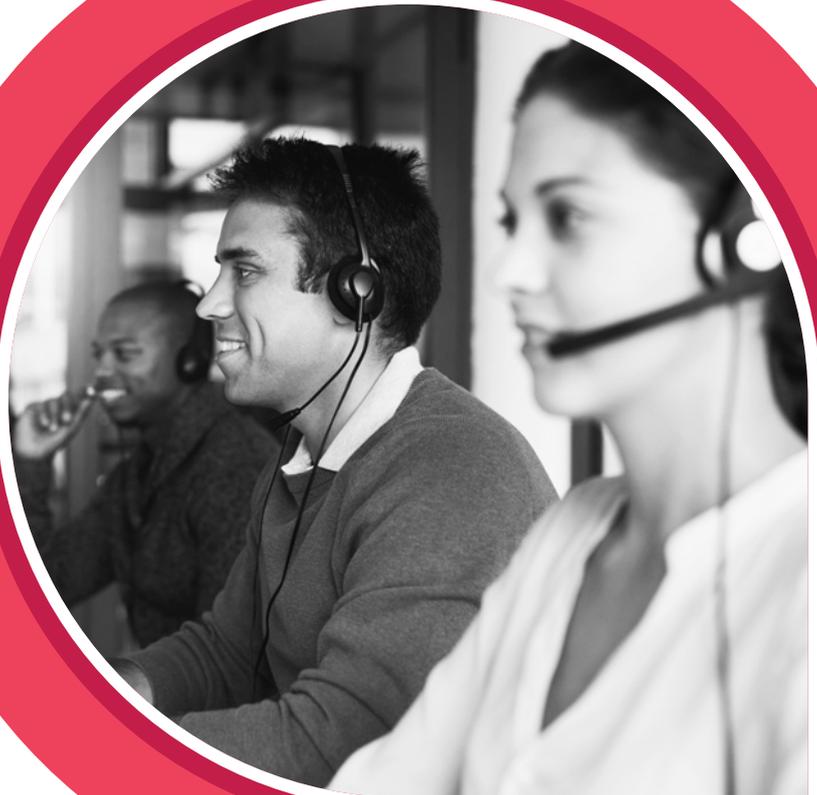

When you access your Reliance XR Series system over the internet using a Mobile App or a Browser, UltraSync can secure and encrypt all your data, giving you peace of mind in today's world.

## CONTROL ROOMS

If you'd rather someone else monitor your system, Control Rooms are here for you.

Control Rooms use UltraSync to monitor your system 24/7 allowing you to be secure, hassle-free and peace of mind when it comes to monitoring.

# SPECS

Product feature		XR	XRPro
Zones	Maximum amount of zones	24	176
	Total amount of on board hard wired zones (zone doubling)	4 (8)	8 (16)
	Inbuilt Wireless Technology	ITI & 80Plus	ITI & 80Plus
	Total amount of wireless zones	16	176
Outputs	Maximum amount of outputs	32	32
	Total amount of onboard outputs	3	4
	Smoke Output	No	Yes
	Maximum amount of areas/partitions	4	8
	Maximum amount of modules	32	32
	Maximum amount of keypads	16	24
	Maximum amount of users	40	256
	Maximum amount of key fobs	8	16
	Ethernet Connectivity	Inbuilt	
	WiFi & Cellular Radio (3G/4G) Connectivity	NXX-4G-WFSIM-AU	
	Back to Base monitoring (Ultra Sync only)	Yes	
	Automatic arming	Yes	
	Total amount of events	1024	
	Programming Options	PC/App/Web/Keypad
